Reliable Durability - The M1225 passes MIL-STD 810 C,D & E with flying colors. This means utility vehicle construction, potholes, even a 75g impact will not dislodge this radio or disable it. Additionally, the M1225 has passed Motorola's own Accelerated Life Testing, which simulates years of rugged usage in the field.

Motorola Radius M1225 Channel Re-programming (self.amateurradio) submitted 3 years ago by GuyFromV Does anyone know anything regarding modifying an M1225 base that was previously provisioned for a private company, is it possible to get a good frequency spectrum for amateur use putting a little elbow grease into a project like this or is it a ...

### **Motorola Radius M1225 Channel Re-programming - reddit**

Many of the M1225 radios will not program down into the Amateur bands, and the ones that will only do a small portion of the band. I have a 1225 that will only work from 450-470MHz. I would personally suggest selling them and spending the money on some Radius CM-300 radios.
