The first Series 60 engine was made in 1987, the year before Detroit Diesel Corporation was
officially born. The Series 60 was designed to be a more fuel efficient option for the heavy-duty
market. Given the demand for more fuel efficient vehicles in the 1980's, the Series 60 quickly
became a popular engine.

Print Preview - C:Documents and Settings\head01\Local ...

The piston of the Series 60 engine is a two piece design. The forged steel dome provides the structure to harness high horsepower and a strong surface for the piston rings to seal against. The top ring of the Series 60 marine engine is lowered to protect it from high cylinder temperatures. Ring thickness is increased by 20% to increase strength.
