The Nissan A series of internal combustion gasoline engines have been used in Datsun, Nissan and Premier brand vehicles. Displacements of this four-stroke engine family ranged from 1.0-liter to 1.5-liter and have been produced from 1967 to the present. It is a small-displacement four-cylinder straight engine. It uses a lightweight cast iron block and an aluminum cylinder head, with overhead ...

**Nissan A engine - Wikipedia**

The Nissan Sunny is an automobile built by the Japanese automaker Nissan from 1966 to 2006. In the early 1980s, the brand changed from Datsun to Nissan in line with other models by the company. Although production of the Sunny in Japan ended in 2006, the name remains in use in the Chinese market for a rebadged version of the Nissan Latio.. In North America, the later models were known as the ...

Datsun model series B210 was the third-generation Sunny. They were sold during Model years 1974-1978 and marketed in various countries as the Datsun B210 or Datsun Sunny. In some countries it was designated Datsun 120Y, Datsun 140Y or Datsun 160Y depending on the engine fitted. The B210 was designed to be more luxurious than the spartan B110, so it has a 40mm longer Wheelbase with some models ...

In tests, this B210 goes from zero to 60 in, well, never—unless you're driving down a rather steep hill. The lack of acceleration is likely attributable to the B210's unique engine design: a couple of malnourished hamsters running on wheels connected to the driveshaft by a crude system of belts and pulleys.
