Internal Analysis: Resources, Capabilities, and Activities

One simple definition of management accounting is the provision of financial and non-financial decision-making information to managers. According to the Institute of Management Accountants (IMA): "Management accounting is a profession that involves partnering in management decision making, devising planning and performance management systems, and providing expertise in financial reporting and ...

Management accounting - Wikipedia

Backflush accounting is a certain type of "postproduction issuing", it is a product costing approach, used in a Just-In-Time (JIT) operating environment, in which costing is delayed until goods are finished. Backflush accounting delays the recording of costs until after the events have taken place, then standard costs are used to work backwards to 'flush' out the manufacturing costs.

Backflush accounting - Wikipedia

4-14 Payroll accounting is similar for a governmental fund and a for-profit entity, except Expenditures rather than Expenses are recorded Debit Expenditures for full amount of payroll and credit liabilities for withholdings from employees' pay; credit
