Used Land Rover East Rutherford, Rutherford, Nutley ...

I'd like to narrow down the differences between the Rover V8 and its Leyland P76 4.4 litre sibling. Somewhere on the forum (I can't remember where), Chris York tells a story about the 4.4 litre being part of the original plans for the V8 when Rover took it over, but a difference in bore centres stopping the show due to limitations of the production line machinery.

Differences between the Rover 3.5 V8 and the Leyland 4.4 ...

The Definitive Rover V8 Engine Knowledge Base for Range Rover, Land Rover, TVR, Morgan, Marcos & Classic Cars Running Rover V8 Engines.

ENGINES / GENERAL INFORMATION - V8Wizard

The Rover V8 engine is a compact V8 internal combustion engine with aluminium cylinder heads and cylinder block, originally designed by General Motors and later re-designed and produced by Rover in the United Kingdom. It has been used in a wide range of vehicles from Rover and other manufacturers since its British debut in 1967.

Rover V8 engine - Wikipedia

The 4.2-litre engine was the first production Rover V8 to use this feature, but on the 4.0/4 6 litre engines it has been increased from the 0.55 mm of the 4.2-litre to 0.60 mm. The reason for this offset is to produce a slight side loading on the piston at TDC, thus eliminating piston slap all part of the infinite attention to design detail by ...

Buick 215 Rover 3.5 Land Rover 4.0 and 4.6 differences

A V8 engine is an eight-cylinder V configuration engine with the cylinders mounted on the crankcase in two sets (or banks) of four, with all eight pistons driving a common crankshaft. Most banks are set at a right angle (90°) to each other, some at a narrower angle, with 45°, 60°, and 72° most common.

V8 engine - Wikipedia

In addition, of course, the world-championship winning Brabham F1 cars of 1966 and 1967 used much-modified (by Repco) versions of the original Buick engine, producing up to 340 b.h.p. from 3-litres! The next Rover 4x4, however, to use the V8 engine was the massive, brutal-looking, 101in. forward-control Land Rover,...

History of the Rover V8 - Roverfest

General. This conversion kit is for the installation of a Chevy / Holden LS1, LS2, LS3 V8 engine to the standard Range Rover / Land Rover 4 and 5-speed transmissions. The kit will also suit a Land Rover 109" and 110" wheel base including the Land Rover Defender and the Discovery fitted with the Rover alloy V8 engine.

Landrover Engine Conversions - Marks 4WD

We have included a reference chart of Rover V8 engine numbers from 1970 onwards, which will help you to identify the engine fitted to your vehicle. The engine number of most Rover V8s is stamped on the left hand side of the block deck, adjacent to the dipstick tube, although some very early engines had the number stamped on the bellhousing ...
