Cummins will provide the entire electrified power solution, as well as some of the most critical components that have the largest impact on performance, quality and power of the ...

Cummins | A Global Power Leader

The Cummins Engine Company was founded in Columbus, Indiana, in 1919 by William Glanton Irwin and Clessie Cummins, a local mechanic. It focused on developing the diesel engine invented 20 years earlier, but in spite of several well publicized endurance trials, it was not until 1933 that their Model H, used in small railroad switchers, proved successful.

Cummins - Wikipedia

Company History: No one makes more large diesel engines than Cummins Engine Company, Inc. The company's other products--filtration and exhaust systems, natural gas engines, engine components, and electronic systems--have come to provide most of the company's profits, however, as the truck engine market has shrunk.
