### **Current Psychotherapies 9th Edition**

Psychotherapy is the use of psychological methods, particularly when based on regular personal interaction, to help a person change behavior and overcome problems in desired ways. Psychotherapy aims to improve an individual's well-being and mental health, to resolve or mitigate troublesome behaviors, beliefs, compulsions, thoughts, or emotions, and to improve relationships and social skills.

Humanistic psychology is a psychological perspective that rose to prominence in the mid-20th century in answer to the limitations of Sigmund Freud's psychoanalytic theory and B. F. Skinner's behaviorism. With its roots running from Socrates through the Renaissance, this approach emphasizes individuals' inherent drive towards self-actualization, the process of realizing and expressing one's own ...

### **Humanistic psychology - Wikipedia**

It is not about taking control over a person's life and extinguishing their basic human rights so much as creating an alliance in which the psychiatric nurse assists the patient in their journey to recovery. Ethical conflict and issues such as lack of consent continue to remain a problem in current mental health.

Selected items from the Student-Teacher Relationship Scale (STRS, Pianta & Nemitz, 1991) were  
used as a measure of teacher-child relationship quality. This brief measure was used to reduce the  
length of the teacher battery included in the larger study. Nine items, reflecting both close  
relationships and negative reactivity were summed such that high scores represent a positive  
relationship ...
