Chapter 17 introduced product costing, the schedule of cost of goods manufactured, and the basic cost flow of a manufacturer. In that preliminary presentation, most cost data (e.g., ending work in process inventory, etc.) were "given." Chapter 18 showed how cost data are used in making important business decisions. How does one determine the cost data for products and services that are the ...

The oldest known sundial is from Egypt; it dates back to around 1500 BC (19th Dynasty), and was discovered in the Valley of the Kings in 2013. Sundials have their origin in shadow clocks, which were the first devices used for measuring the parts of a day. Ancient Egyptian obelisks, constructed about 3500 BC, are also among the earliest shadow clocks.

overall fairly good course. I wish there was a glossary of terms in the back of the book, with reference to where to locate the info in the chapter. also, there was one wrongly worded question on my second exam, it had something to do with the amount of bond a commercial contractor had to have per incident... it should have read how much insurance, not bond.

In computing, floating-point arithmetic (FP) is arithmetic using formulaic representation of real numbers as an approximation so as to support a trade-off between range and precision. For this reason, floating-point computation is often found in systems which include very small and very large real numbers, which require fast processing times. A number is, in general, represented approximately to ...
