The Ducati ST series is a set of Italian sport touring motorcycles manufactured by Ducati from 1997 through 2007. In order of release, the series comprised five distinct models: the ST2, ST4, ST4S, ST3, and ST3S. Intended to compete with other sport-tourers such as the Honda VFR, the ST Ducatis had a full fairing, a large dual seat and a relaxed riding position for both rider and pillion.

**Ducati ST series - Wikipedia**

The classic European Gran Turismo tradition is the inspiration for the Ducati Sport Touring family. The 2005 ST family offers maximum handling, rider comfort and style in three models – the ST3, with 3-valve Desmo engine, and the flagship ST4S and ST4S ABS.

The next new Ducati engine to appear after the Ducati Apollo was the 90° V-twin, initial Grand Prix racing versions being 500 cc, and the production bikes were 750 cc. There was also the Ducati 750 Imola Desmo that won at Imola in 1972. These engines had bevel gear shaft drive to the overhead camshaft, and were produced in round, square, and Mille crankcases.

ST3 Cam Timing Changes and tuning with Techlusion/SFI - Written Feb '06. Updated June '06. Std cam timing results added at bottom. We have a demo ST3 that's got quite a few km on it now so I thought I'd have a play with it some more. In the previous ST3 report I did the usual muffler/airbox/fuel thing to see what was in it.
