cost engineering. At Cost Engineering we therefore promote that companies should make a step in bringing the estimating and project controls departments closer together, as opposed to two different departments each with their own different views and tools. We also see that projects are driven by cash flow.

**COST ESTIMATING AND PROJECT CONTROLS - Cost engineering**

Engineering Costs. A direct labor marginal cost of \$2.50 to produce one additional production unit is an example marginal cost. The average cost is the total cost of an output or activity divided by the total output or activity in units. If the total direct cost of producing 400,000 is \$3.2 million, then the average total direct cost per unit is \$8.00.

**2019 Cost Data Books | RSMeans Construction Estimating Books**

"The reason for the difference between the architectural and engineering 'climate', so to speak, is very complex. It is partly a matter of terminology, partly a matter of historical accident, and the consequent training of architects and engineers, and mostly a matter of what is commonly supposed to be the difference in content or context - architecture being concerned with producing works ...
