Use the Dell power button lights to help diagnose problems with your Dell computer, such as a failing hard drive or a bad motherboard. Most newer models of Dell computers now have a diagnostic LED surrounding the power button on the front of the computer. When you press the power button to boot the PC, the light should be green and remain green under normal circumstances.

Unfortunately, with only that to go on, there are hundreds, if not thousands, of possible answers. To really diagnose, we'd need a lot more information about the system it's happening on, the software and hardware installed, and what was happening at the time the problem happened.. I'll throw out some guidelines, so perhaps you can narrow down the diagnosis.
