### **Convoy safety | Article | The United States Army**

Final convoy preparation includes organizing the convoy, briefing personnel, and inspecting individual equipment and vehicles. Convoy personnel are usually briefed after the vehicles are lined up. After the convoy commander's briefing, personnel are returned to the control of the march unit commanders who give final instructions. Leaders make

### **TACTICAL CONVOY HANDBOOK - JumpJet .info**

Leaders must be located where they can best command and control the convoy or their portion of it. Generally, a leader should be centrally located in the unit within the order of march, but may need to maneuver to get to a vantage point that will allow him visibility of the battlefield when required.

Recent I joined the BNSF Road Way Equipment Safety Leadership Team in Dallas, Texas. They began their meeting, as many companies do, with a safety briefing. For most meetings, I hear someone give a quick safety minute talk about a general hazard. At many meetings, the emergency exits are pointed out and actions to take are shared. BNSF went way beyond that in just about the same amount of time.
