Data Access Studio is an all-in-one JDE-centric reporting and BI solution. It boasts the entire spectrum of report building and distribution options. With augmented scalability and performance, DAS8 is a premier tool by which all other JDE solutions are measured.

Data Access Studio - ReportsNow

Developer Studio includes sample data and Master Files to help you familiarize yourself with the interface and practice creating applications. However, to create applications that report on your own data, you need Master (.mas) and Access (.acx) Files (synonyms). Master Files describe the data so WebFOCUS can report on it. Access Files provide information that WebFOCUS needs to access the data.
