With over 40 years of vibration control and vibration isolation design and manufacturing experience, Newport has become the industry standard for optical tables, isolation systems, and vibration control products.

Vibration Control and Anti-Vibration Tables - Newport

A fire-control system is a number of components working together, usually a gun data computer, a director, and radar, which is designed to assist a weapon system in targetting, tracking and hitting its target. It performs the same task as a human gunner firing a weapon, but attempts to do so faster and more accurately.

Fire-control system - Wikipedia
