Sample Exam Questions Data Structures and Other Objects Using Java (Third Edition) by Michael Main ISBN 0-321-37525-4

Data Structures - Sample Exam Questions

6.006 Final Exam Solutions Name 3 (j) T F [2 points] Given an adjacency-list representation of a directed graph G = (V;E), it takes O(V) time to compute the in-degree of every vertex. Solution: False. The adjacency list structure needs to be traversed to find the incoming edges for each vertex. This structure has total size (V + E), so this

Final Exam Solutions - MIT OpenCourseWare

Exam (with answers) Data structures DIT960 Time Monday 30th May 2016, 14:00–18:00 Place Hörsalsvägen Course responsible Nick Smallbone, tel. 0707 183062 The exam consists of six questions.For each question you can get a G or a VG. To get a G on the exam, you need to answer three questions to G standard. To get a VG on the exam, you need to answer five questions to VG standard.

Exam (with answers) Data structures DIT960

CS 61B Data Structures. Prof. Jonathan Shewchuk jrs@cory.eecs (But send class-related mail to cs61b@cory.eecs so the TAs can respond too.) Spring 2005 Mondays, Wednesdays, and Fridays, 3:00-4:00 pm 4 Le Conte Hall (next to the Campanile) Final exam solutions are available (except Problem 2).

CS 61B: Data Structures - EECS at UC Berkeley

Princeton University Computer Science 126, Exams with solutions, 2005-2011. ... Sample exam problems and solutions. Data Structures . UC Berkeley CS 61B Berkeley - Data Structures. Final review questions with solutions, from Jonathan Shewchuk. Colorado Data Structures and Other Objects Using Java. Sample problems with solutions.

Computer Science Exams With Solutions

In this post you will find the solved question paper for the subject Data Structures Using C.Data Structures is one of the important subject in Amity University. You can find the Amity Question Papers for the subject Data Structures Using C below.

Data Structures Using C - Previous Year Question Paper ...

Exam Data structures DIT960 Time Friday 5h June 2015, 14:00–18:00 Place Väg och vatten Course responsible Nick Smallbone, tel. 0707 183062 The exam consists of six questions. For a G, you need to answer three questions correctly. You can ignore any parts labelled "VG". For a VG, you need to answer five questions correctly. You must also answer all parts labelled "For a VG" in those ...

Exam Data structures DIT960 - Chalmers

I dont disagree with that, its just this is a large jump for someone with zero exposure to data structures in general to abstract concepts in a language that is very different from Java in certain aspects. 112 is difficult enough for most and OP was asking how to prepare for the class with limited amount of time.

How to prepare for data structures? : rutgers - reddit

whose time is O(n), where n is the size of the data structure, should have earned 0 points. Nevertheless, since there was an additional insight involved, that of hierarchical storage, I gave partial credit to O(n) solutions. (a) Since the data structure fits in memory, then conceivably, any data structure that allows logarithmic search would do.

Data Structures 89-120, FINAL EXAM

Data Structure and Algorithm I Midterm Examination 120 points Time: 9:10am-12:10pm (180 minutes), Friday, November 12, 2010 Problem 1. In each of the following question, please specify if the statement is trueor false. If the statement is true, explain why it is true. If it is false, explain what the correct answer is and why. (40 points.

Data Structure and Algorithm I Midterm Examination 120 ...

Exam page 2 CS 311 Data Structures and Algorithms, Spring 2009 Midterm Exam Solutions The Midterm Exam was given in class on Wednesday, March 18, 2009. 1. [4 pts] Parameter Passing in C++. In the table below, the names of the three ways to pass parameters in C++ are written in the first row.

3. [6 pts total] - CS Home

COS 226 Algorithms and Data Structures Fall 2011 Final Solutions 1. Analysis of algorithms. (a) T(N) = 1 10 N 5=3. When Nincreases by a factor of 8, the memory usage increases by a factor of 32.

Final Solutions - Princeton University

The exam is closed book and closed notes. Do not begin until instructed. You have 150 minutes. Start by writing your name and Cornell netid on top! There are 17 numbered pages. Check now that you have all the pages. Web, email, etc. may not be used. Calculator with programming capabilities are not permitted. This exam is individual work.

CS/ENGRD2110: Final Exam SOLUTION

Past exam papers: Data Structures and Algorithms. Solution notes are available for many past questions. They were produced by question setters, primarily for the benefit of the examiners. These are not model answers: there may be many other good ways of answering a given exam question!

Past exam papers: Data Structures and Algorithms

CSCI-1200 Data Structures Final Exam | Practice Problem Solutions 1Skip List Erase [/ 23] In this problem you will complete the implementation of a recursive function to erase a speci c value from a skip list. Remember that a skip list stores data in sorted order. Each level of a skip list chains together approximately half as many nodes as ...
